

(1) Community Health Worker
\$10,400
10 hours per week

Compensation:

\$20/hour, grant-funded temporary position (12 months), National Diabetes Prevention Program (NDPP) Training

General Job Statement:

The Community Health Worker (CHW) will recruit and assist with the implementation of the NDPP. The NDPP is designed to prevent type 2 diabetes in people diagnosed with prediabetes or at risk for type 2 diabetes by emphasizing the need to make lasting lifestyle changes.

Requirements:

- Verifiable good driving record and reliable transportation
- Background check and fingerprinting
- One (1) year prior experience and/or state certification
- Proficient in Microsoft Office 365 and various social media platforms
- Bilingual/bicultural (Spanish) encouraged to apply

Key Responsibilities:

- Must be available to participate in the NDPP Training (August 2022)
- Assist with NDPP implementation
- Work collaboratively and effectively within a team
- Establish positive, supportive relationships with participants and provide feedback
- Help participants develop health management plans and goals
- Help participants in utilizing resources
- Motivate participants to be active and engaged in their health
- Document activities and results in an effective manner while strictly adhering to the policies and procedures in place
- Establish and maintain a social media presence
- Other duties as assigned
